

Introducing ...

ACS  
central  
science

ACS Publications  
Most Trusted. Most Cited. Most Read.

- **Exceptional scientific content**, creative, significant, broad interest, 100-200 papers per year
- **Interdisciplinary** research that bridges chemistry and biomedicine, energy science, earth and planetary sciences and more
- **Front matter** of general interest, topical reviews, news stories, interviews
- **Open access**, no publication or subscription fees, free access for all

“We envision *ACS Central Science* as the primary venue for reporting the most important advances in chemistry and in allied fields wherein chemical concepts and tools play a major role.”

– **Carolyn Bertozzi, Editor-in-Chief**
